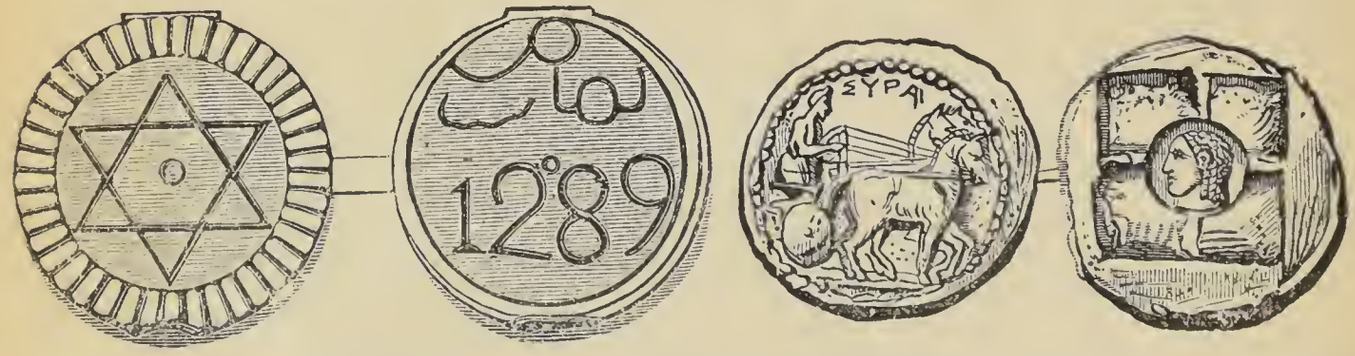
THE

COINAGES OF THE WORLD,

ANCIENT AND MODERN.



This work is intended to give correct information on a subject of which no educated person can afford to be ignorant; and yet, till the publication of this volume, it has been impossible to obtain a general knowledge of the *Coinages of the World* without reading through dozens of heavy quartos, at great loss of time, and probably heavy expense.

By the aid of this book, any person can at once determine the nationality of any coin they may possess, and obtain much interesting information concerning the cause which led to its issue. It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. The paper, press-work and binding are all of the very best. No library can be complete without it.

PRICE—CLOTH, $2.50. HALF MOROCCO, $3.50.

For sale by all booksellers, or will be sent, post free, on receipt of price, by the publishers,

* Notes marked with an asterisk are not known in collections at present, our list being taken from the State records of their issue.

In regard to prices we quote those usually in stock; at the same time we would intimate to Collectors that our stock of some varieties is rather limited, and from the nature of the goods, not liable to be replenished within any specified time. Collectors, in ordering, would do well to make their list considerably in excess of the amount they enclose. We mention this fact to prevent disappointment, but will endeavor to fill all orders as soon as received.

ILLUSTRATIONS
OF
COPPER COINS,

This long-promised work has at length been completed by the artists and printers, who have been working on it for the past year, and is now ready for delivery. We believe its beautiful appearance will amply repay the disappointment experienced by the many amateurs who have been so long watching for its appearance.

The work consists of twenty-four beautifully engraved plates representing a large number of Copper Coins, carefully selected from all parts of the world, and representing the coinages in this metal from the Roman Empire to the present day. The engravings are quite distinct from those embodied in the Standard Copper Catalogue. It is designed as an elucidation of that work and as a guide to the study and arrangement of select and inexpensive collections of Copper Coins, which have not heretofore received the attention they merit, for it must be borne in mind that although the metal is base some of the greatest artists who ever lived have been employed in their production, and the designs on them represent many an important epoch in history.

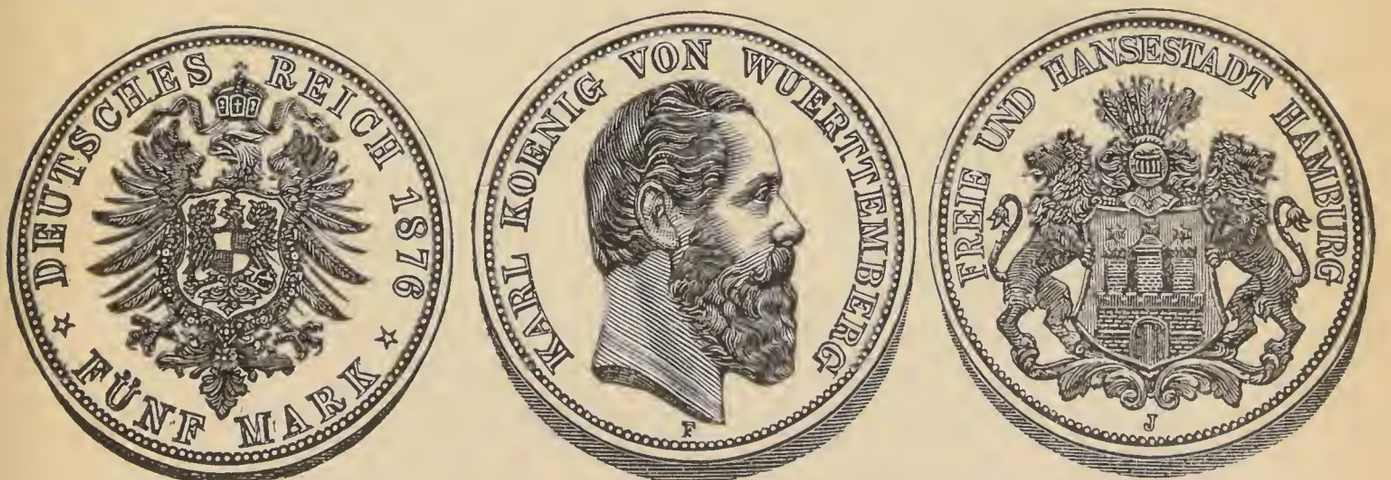
THE
COIN CHART MANUAL.

It is scarcely necessary to call attention to a work which has been regularly issued for a period of nearly fifty years. Our patrons buy each succeeding number with a certainty of finding new beauties and gaining more instruction. A work of this nature requires constant revision to keep it up to the times, and the regular half-yearly editions enable us to do so.



For the information of foreigners we may add that THE COIN CHART MANUAL gives accurate representations of all gold and silver coins found in circulation with them, with their Mint value marked under each.

NEW EDITION FOR 1879

OF THE STANDARD

SILVER COIN CATALOGUE.

The great fluctuations in the value of American Silver Coins during the past year has made a new catalogue an absolute necessity to all amateurs who are collecting the United States silver series. The discovery of 400,000 half dollars at Economy, Pa., has had the effect of materially reducing the value of the dates of which it consisted, while the stimulating effects of the large number of the commoner issues thrown on the market has started many hundred new collections, with a proportionate demand at higher prices for rare dates.

Large 8vo, 48 pages, price 25 cents; or bound up with the Standard Copper Coin Catalogue, post free, 50 cents.

THE SCHIEFFELIN COLLECTION

OF

GREEK, HEBREW, ROMAN & OTHER ANCIENT COINS.

Scott & Co. beg to announce that they are now prepared to supply catalogues of this magnificent collection of coins with *printed prices* of amount realized for each lot, and as this is the largest and most complete collection of ancient coins ever sold in the United States, it is an invaluable guide to the collectors of these imperishable monuments of antiquity.

"The medal, faithful to its charge of fame,
Through climes and ages bears each form and name;
In one short view subjected to our eye,
Gods, Emperors, heroes, sages, beauties lie."—*Pope.*

The catalogue consists of 159 closely printed pages, and will be sent post free on receipt of $1.50; or with photographs of 100 of the rarest pieces, price $2.50.
